Weeping Woman Sends In Vote

Is this your wife?

A prize of 29 1-2 votes will be offered to the one giving us the correct name of the weeping young lady. No, she has not been peeling onions, she has given up in despair after five long years to cure her husband of the terrible "sugar in coffee and tea" habit.

But getting back to the picture of the weeping bride, which heads this column. Here is what she writes:

"I am so glad that you have taken up the fight for this good cause. I just know you will win.
"In my case however, it is too late. I am afraid that my husband is beyond recovery. He can display an interest in nothing but playing golf and the sport sections of the papers and you know that is a bad sign.

"When he first started this nefarious habit I tried in every way to effect a cure. I read advertisements that medicine could be administered to him without him tasting or knowing it and that within three months he would be cured of the habit. It did not seem to work however.

"I secured enough money to buy the medicine by robbing the children's banks. Then I put it in his cigarette tobacco. He threw away the package after complaining that the tobacco Trust was certainly slipping out over on the public. I knew that small doses of the medicine were however taking effect.

"Then the terrible habit of 'rolling our own' became a passing fad. He started buying 'tailor mades'. I was desperate. I wrote to the company that had sent the cure asking them what I should do. They advised putting it in his hair tonic. This caused all of his hair to fall out and he started wearing a toupe. This was the straw that broke the camels back.

"I have given up hope now. We do not keep sugar in the house any longer, but some scoundrel is always supplying him with some. When he can't get the sugar he steals the molasses from the children's flapjacks.

"I know that prohibiting the use of this terrible stuff may not do much for the present generation, but I do feel that it will be of such great assistance to the future leaders of this nation.

'Accept my thanks and best wishes in your fight.'

Desperate.
Votes are certainly pouring in our special staff of counters is being kept busy night and day.

HAYWARD LAW IS UPHELD IN ALAMEDA COURT

Case Attacking Validity of Law Of Milk Inspections Is Closed

MUNICIPALITIES WIN FIGHT

Judge Hall Assists Hayward City Attorney in Fighting The Case

The validity of Richmond's milk ordinance was sustained yesterday afternoon by Judge J. Buck of Stockton, sitting in extra session in Department 6 of the Superior Court of Alameda county.

Although the test case which had been filed by milk distributors of Hayward was aimed at the Hayward Milk ordinance, according to City Attorney D. J. Hall, the decision is as vital to Richmond as it is to Hayward.

Judge Buck upheld the legality of the Hayward ordinance, which provides that milk distributed in Haywards must be pasteurized within ten miles of the city hall of

COL. COOLIDGE SINKING FAST

(By Universal Service)

PLYMOUTH, Vt., March 16.—Col. John C. Coolidge is sinking fast. Tonight he is unable to take nourishment and it is with difficulty that he can take his medicine. Dr. Cram issued his evening bulletin tonight after getting a report of his condition by telephone Deputy Sheriff A. Angus, the Colonel's body guard.

The bulletin beat out the statement today by a visitor from the sickroom. They found him much worse than usual, but endeavoring to maintain a cheerful front. He is asking for all particular friends and neighbors to pay him a last visit.

WATER HEATING LAID OVER

The state railroad commission yesterday postponed the hearing of the case of the Rodeo Improvement club against the Rodeo Water company and set the date for April 15.

The improvement company alleges that the water supplied by the company is unfit to drink and asks that the commission evaluate the property and compel the water company to furnish drinkable water to the city. The plaintiffs are represented by Attorney Pierce and Carlson.

Road Cleared to Enable President To Reach Father

(By Universal Service)

PLYMOUTH, Vt., March 16.—The snow blocked road from White River Junction, Vt., which was impassable for seven miles between here and Bridgewater was penetrated late today by two tractors pushing and hauling a snow plow and a path was made for President Coolidge to reach the bedside of his father, Colonel J. C. Coolidge, should this become necessary.

The road had scarcely been cleared when another new storm sprang up and at the end of two hours was still sending down flaky white particles which the natives, however declare will not

Seek Hero Medal For Boy of Nine who Saved Chums on R. R. Trestle

Harry Wilson, 9 year old, and two of his schoolmates were walking over a trestle 100 yards long at St. Clairsville, Ohio, when they heard a train approaching. One of the boys faintly from fright, but little Harry ran to flag the train which stopped but a few feet from the children. The act was witnessed by several grownups, all of whom were too terrified to act. Now they have asked the Carnegie Hero Fund Commission to give official recognition to Harry's heroic act.

PINOLE WOOLEN MILL COMPANY GETS CONTRACT

The first contract of the California Woollen Mills, Inc., which is negotiating through President Fred Carter for the establishment of a factory on the outskirts of Pinole was signed yesterday. By the contract the woolen firm takes over a tenth of the local business houses. She was greatly impressed with the high type of stores to be found in Richmond and especially with the attractive window displays.

Richmond's new Community Hotel which is fast being completed at Tenth street and Macdonald avenue received a great many complimentary remarks from Mrs. White who stated that it was one of the best indicators of Richmond's fast development.

Drink Held Cause Of Motor Accidents

(By Universal Service)

WASHINGTON, March 16.—Drunken drivers and also the motorist who has "only a few under his belt" were scored as a menace to traffic in a report by the committee on charges of accidents of the Commerce department today. Finding that carelessness and reckless cause most of the accidents now taking a heavy toll of life on the highways the committee will urge drastic reform in the examination of all automobile drivers when the Second National conference on Street and Highway safety to be held in Washington, March 23 to 25.

She was greatly impressed with the high type of stores to be found in Richmond and especially with the attractive window displays.

GERMANY FAILS TO GAIN SEAT IN THE LEAGUE

(By Universal Service)

GENEVA, March 16.—Something like a miracle is needed to save the Geneva League Conference from blowing up in a row that might mean the end of several cabinets and the wrecking of the foundation of the league itself not to mention the discarding of the Locarno Peace Pact. The miracle depends upon Brazil. The council voted 7 to 3 tonight to recommend to the assembly tomorrow to postpone Germany's entry to the league.

Body Of Child Found In Water

The body of Francisco Cavallo, four year old son of Mr. and Mrs. A. Cavallo of Martinez, was found late Monday afternoon. Searchers dragged the waters of Carquinez straits near Martinez. The boy disappeared on Sunday afternoon and search was instituted. Evidently the child had been playing near the wharf and in Kratzer in charge of the tour on some manner tumbled in.

INCOME TAX RECORD IS BROKEN HERE

In spite of the increase in exemptions this year more income taxes were filed from Richmond during the present year than during any of the past six years, according to John A. Miller, local Deputy Collector of Internal Revenue. Miller turned in approximately 1270 income returns during the last five days of the filing period and assisted in the preparation of approximately 300 others that were sent in direct. In all, this makes about 1570 returns that were filed from Richmond during the last five days of the period.

Although exact figures for the previous years are not available, Miller stated that the returns filed this year greatly exceeded those of last year.

MERGER OF THE S. O. - GENERAL IS EXPECTED

Although John Barneson of the General Petroleum company refused to affirm or deny the report, financial circles persist in declaring that the Standard Oil Company of California together with the New York company, are to purchase control. As the result of the firm belief in the merger, shares of the General Petroleum rose yesterday in the San Francisco and New York markets.

E. F. Hutton and company wires that an offer of two shares of capital stock of the Standard Oil Company for one share of the common stock of General Petroleum is believed to be the basis of the present negotiations.

The fact that Captain Barneson has continued to refuse to comment on the merger tends to stress the belief that negotiations are well under way.

Plans For Caravan Are Completed

Bathing Girls to Accompany Parade

With all committeemen working at top speed under the direction of Aubrey Wilson chairman, the details for the Trade Extension Caravan through the county tomorrow morning and the dedication of the Richmond Municipal Natatorium Saturday are nearing completion.

An announcement was made yesterday by the Richmond Merchants Association that they have completed arrangements to carry the band and a bevy of bathing beauties.

This group of bathing girls who will accompany the caravan in the regulation Neptune style are rehearsing a number of stunts which will be presented at every city through which the caravan passes.

Matilda Meyers is heading the group of girls and has promised the committee in charge that the stunts which they are arranging are well work while.

Merchants were also instructed by the committee to get out their flags for the Saturday parade and celebration. Special window trims will be put in and the city in general will take on a festive air.

F. A. Leland today assured C. C. Kratzer in charge of the tour on some manner tumbled in.

RAILROAD COMMISSION HAS APPROVED CUT IN RICHMOND FERRY RATES

TRANSPORTATION COMMITTEE OF CHAMBER BRINGS ABOUT DRASTIC CUT

On and after April 15 the ferry fare between Richmond and San Francisco for automobiles will be reduced from \$1.00 to 60 cents according to an announcement made yesterday afternoon by P. M. Sanford President of the Richmond Chamber of Commerce.

This reduction is the direct result of an energetic campaign which has been conducted by the Transportation Committee of the Chamber headed by W. W. Scott. Scott in company with other members of the committee including J. H. Plate, M. A. Hays and J. N. Long have held a number of conferences with F. S. McGinnis passenger traffic manager of the Southern Pacific Company.

In these conferences the local committee pointed out to the Southern Pacific Officials the difference in rates between the Richmond and Oakland ferries and the consequent loss of business for the local ferry.

The voluntary petition filed yesterday morning by the Southern Pacific Company asking for the reduction was immediately acted upon by the Railroad Commission which set April 15 as the date for the new rate to go into effect.

This according to Sanford is one of numerous matters which are under consideration by the Transportation committee for Richmond's benefit. The ferry reduction fight was started shortly after the first of the year, immediately after the committee was appointed. Other things of equal importance to Richmond will now be undertaken by the committee according to Sanford.

With the new rates, Richmond will be granted the same fare to San Francisco which is now in effect between that city and Oakland and Sausalito.

The company's purpose in making the sweeping reductions is to stimulate traffic to this vicinity and to divert some of the travel which is congesting the Oakland route. The reduction is regarded as the most drastic cut made by the ferry companies.

Two weeks ago, officials of the Golden Gate ferry voluntarily cut their rates for automobiles between San Francisco and Marin county from sixty-five to sixty cents.

The new rates on the Southern Pacific ferries are expected to overcome the deficit which the company has faced since inaugurating the Richmond-San Francisco service.

The passenger rates between the two cities will remain unchanged, with twenty-one cents one way and thirty-five cents round trip.

VIOLENCE ALWAYS LOSES

Violence is about the most unpopular thing in the United States today. To attract the animosity of the American public there is no surer way than to resort to force. The public's intolerance of disorder and lawlessness is having a refining effect upon those groups and classes among which might is still right.

Industrial strikes are no longer accompanied by property damage because it is no longer countenanced by public opinion. Violence defeated the very purpose of the last strikes defiled by it. Lynchings, once condoned and abetted by the intelligent South, is now looked upon with disfavor even in the farthest South: There is a falling off in the number of lynchings and the diminishing number are perpetrated by degenerates and illiterates.

Our growing national aversion to violence is not the result of fear, lack of patriotism, emasculation or blindness to justice, but to a strengthening conviction that it is unnecessary; that the human mind can gain more than the powder mine; that education is more effective than enforced legislation; that the wheels of justice, which grind slow, grind exceeding fine.

America is the apostle of that inevitable evolutionary period when the intellect will be man's one weapon, leaving futile violence to savage beasts.

THE UNRELIABILITY OF FACTS

The Emporia Gazette was called down the other day for using the expression "unreliable fact."

The reference to "unreliable facts" is the Gazette's story, and the Gazette intends to stick to it. And so it says that all facts are unreliable.

Explaining the novel idea, the Gazette points out to the fact that what we call a fact today may become a fallacy tomorrow. Facts are such troublesome things. They are continually being refuted.

In other words, we presume, a fact is subject to the Einstein theory of relativity. It is now alleged by a scientist that the Einstein theory is exploded, but of course that doesn't prove anything either. It simply illustrates still further that when you try to put your finger down on a fact it takes on the characteristic of a flea and isn't there. People a few thousand years ago solemnly accepted the fact that the earth was flat. Of course it was flat. Couldn't you see it? Didn't great bodies of water lie level on it without slopping off into space?

This fact was upset and the people had to build a new series of facts in conformity.

This is an age of iconoclasm. It is refreshing to hear the Gazette say that all facts are unreliable. Out of the unreliability will emerge more and more reliability, and possibly even a little probability once in a while.

BRITCHES AND POLITICS

Ramsey Macdonald of England, chief of the British labor party, who lost his post because while in office as premier he fell for the blandishments of swallow-tail, knee breeches and silk stockings, now has a companion in misery. J. H. Thomas, another British labor leader, is being assailed by Comrade Cook of the British mine workers' union because he was recently found wearing a dinner jacket. The fact that he wore trousers instead of knee breeches may perhaps save him, but if these disputes continue, British parliamentary and labor bodies may find it necessary for the proper conduct of their proceedings

MUTTERINGS OF THE REVOLUTION

Long before the colonists were actually ready to declare war on England, long before their grievances had become bitter enough for battle, the first mutterings of war in the distance could be heard.

Often, redress would come, things would be smoothed over and all would be peaceful again for a while. Thought of actual war was still very far in the distance.

The numerous taxes imposed by the English crown were bound to cause trouble. Of course the colonists expected to be taxed for some things. But they were forced to accept tax edicts blindly. And often times the taxes were too great for the colonists to bear comfortably.

As early as the year 1728 the Governor of Pennsylvania had suggested a Stamp Tax as a means to raising money among the colonists. Though the measure was not put through at that time, it comes to the fore a few years later, and it would be well to

keep those two words, stamp tax, in mind.

The colonists often complained because England saw fit to unload so many of her criminals on their shores. It hadn't seemed such a bad idea way back in the beginning when there were so few settlers of any kind. But why the practice should continue now was hard to understand.

Then there was another grievance. From time to time the colonists had attempted to check the slave trade. But every such move had been peremptorily stopped by the British. Now the British were making a good deal of money from the African slave trade. Traders in these human beings had brought great wealth with them. And English did not propose to have the colonists checking their money-making scheme.

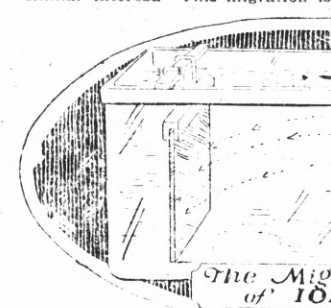

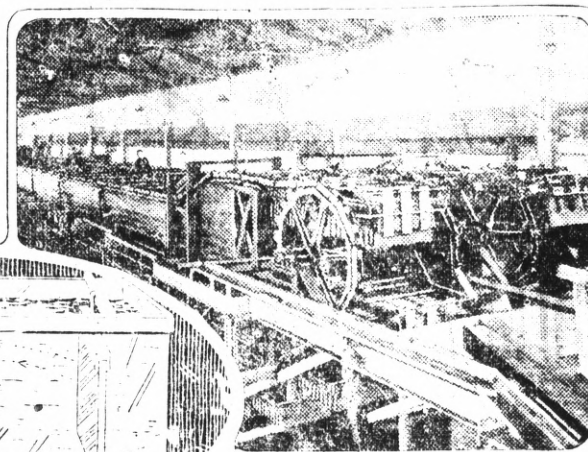

You have seen how often the ire of the colonists was aroused by the migrule and arrogance of royal governors. These men came to the colonies as representatives of the king. It was difficult to get any redress for wrongs done by them. The colonists began to feel

Industry's Conquest of Ions Produces Copper-Surfaced Asphalt

If you had eyes like immensely powerful microscopes, perhaps they might help you to verify the scientific contention that solid substance is in reality composed of infinitely small atoms which are constantly in motion. Science declares that to be a fact.

Research into the relation and migration of atoms is fascinating. Migration of ions, which are particles less minute than atoms, has similar interest. This migration is

It is more interesting because it can be controlled and put to practical use.

For example, controlled migration of ions in a new industrial process has at last realized the dream of electro-metallurgists and made possible on a commercial basis the permanent union of copper with a non-metallic substance. Heretofore this has been possible only as a laboratory achievement. It is now a large industrial enterprise that has given the country a new product—copper-clad asphalt.

The process also has added

blown flame, one minute on and one minute off, for a full hour and also to radiated heat of 1200 degrees for an hour. Back of the copper-covered asphalt was wood sheathing. At the end of the test the roasting material and the wood sheathing were intact.

Copper and asphalt were used by the early Egyptians, separately however. Many articles of both materials are existent to-day after centuries of exposure. The combination of the two in an inseparable unit for practical uses was beyond the skill of the ancients. It balked modern industrial science, too, until the process was developed which now gives the world copper-surfaced asphalt for roofing purposes.

LESSON IN HOME DRESSMAKING

Costume Slip that is Sure to Enhance Smart Lines of Frocks for Formal and Informal Use

MANY things contribute to the importance of the costume slip this season. Not only is it worn independently under many of the one- and two-piece frocks, but it forms an essential underlay for various types of frocks built with overdress effects. The slip pictured has the left of the back lapped over the right, the extension being stitched across the upper edge. It hangs free below the stitching, and is finished with a hem.

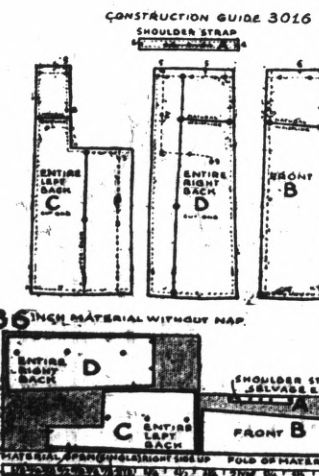

To copy the slip for medium size requires 2½ yards 36-inch material. Before attempting to cut the garment, lay the tissue on the material exactly as shown in the cutting guide. Then mark each number and perforation. The number of each step of the construction corresponds with the number of the notch or perforation to which it refers.

Close the underarm seams of slip, then hem the upper edge. Next, turn hem on extension on left back C on line of small perforations. Lap left back over right to line of medium perforations, with center-back, notches at upper back edges and the lower edges even. Stitch to position. Leave the left back free below perforations.

Finish the slip by sewing the shoulder strap underneath the hem at the upper edge.

Lace may be added if desired. The decoration of the slip depends upon its material and the purposes for which it is to be used.

Planning to make the fifteenth annual St. Patrick's Day dance greater than the ones held before it, the committee composed of members of Y. L. I. and the Y. M. I. under whose auspices the ball will be given, announce that all the details have been completed to make tonight's entertainment a success.

Music will be furnished by the Esola-Bibbins orchestra, which will include in its program a number of well-known Irish airs, appropriate for the occasion.

Owing to the popularity of these dances in the past, a large attendance is expected at the ball which will be held in the Memorial ballroom.

The joint committee of the two organizations is composed of Miss Alice Woods, Miss Agnes Ring, Miss Josephine Walte, Miss Helen Maloney, Miss May Berk, Joseph Silva, Bernard Dolan, James Housnell, William Carey and M. Corr.

ALLEGED MEMBER OF BANDIT BAND WHICH GAGGED AGED WOMAN AND 8 SERVANTS, AND STOLE JEWELS

Below are shown Linwood R. Hawkins (at left) who caught Joseph P. Davis (right), alleged bandit who is said to have participated in the gagging and robbery of Mrs. Caroline Williams, 80 years old, and her eight servants in her beautiful Washington D. C. home. Davis is said to have been a member of a gang of six bandits who extorted the Williams residence and, after gagging all the occupants, snatched jewelry from their persons.

pile high enough to be called a real storm.

The opening of the White River Junction route was the result of public indignation here against the feeble efforts made by the road commissioner to open up an auto trail route to Ludlow, the nearest railroad station, 12 miles away.

For two weeks the latter has been directing efforts of a crew of men and a dilapidated tractor pushing out and for several days the machines were abandoned in the middle of the road. In nine hours the Woodstock workers, aided by volunteer workers from Plymouth, neighbors of the sick man, accomplished what the other crew could not do.

Late today the Colonel was reported fairly comfortable, but he is strangely quiet. He is much weaker than he has been, although his heart action is reported good.

Dr. Albert M. Cram, his physician, admitted today he had told president Coolidge over the private telephone from the sick room that for the present it was not necessary for him to make the journey here.

The Colonel is known to his neighbors as a strong willed man and of indomitable courage and it is these two characteristics which are aiding him to hold out against death.

Another Attempt Is Made to Kill The King of Spain

(By Universal Service)

PARIS, Mar. 16.—Details of another attempt on the life of King Alfonso signifying a steady spread of Republicanism in Spain, has reached Paris through diplomatic circles from Madrid. It is the fourth attempt to assassinate Alfonso within as many months.

As Alfonso was hunting, four would-be assassins hid themselves in the bathroom of the villa or hunting lodge occupied by the king. The police presumption was that there was conspiracy on the part of some servant in the house.

The bathroom opened directly in the king's bedroom, usually it is bolted on the bedroom side. Just before the king entered his bedroom he heard Alfonso enter the bathroom and that usually he drives in to the room and shot the bolt of the door. When the men in the bathroom heard Alfonso enter they pushed against the door not knowing that it was bolted and believed it was merely sticking. Finding it locked they threw their weight against it. And then it is alleged they fired through the door. Guards rushed into the room and captured all four.

In previous attempts his chauffeur is reported to have been killed. It was known to the plotters that the king likes to drive his own car and that usually he drives at a terrific speed. It was planned to pick him off at the wheel. On this day Alfonso took a notion to ride in the rear seat. That saved his life. At the speed the car was going the assassins could not see that it was the king. The fusillade of shots killed the chauffeur.

Evangelist Presents Cartoons to Children Attending Services

Cartoons drawn by Evangelist Jerry Jeter illustrating his talk on the "Personality of the Devil" were distributed to the children, who attended the meeting last night in the Wesley M. E. Church. Jeter plans to give his cartoons to the children after each night's talk.

Tomorrow afternoon at 2:30 o'clock, Mrs. Jeter will preside at a Bible conference. At seven o'clock, Mrs. Jeter will address the children and Mr. Jeter will choose for his subject "Cain, Cain and All the Little Cains Raising Cain." There will be congregational singing.

Six Escape From Los Angeles Jail

(By Universal Service)

LOS ANGELES, March 16.—After knocking a guard unconscious with a heavy brass bolt, six prisoners, including two convicted murderers and two bandit suspects escaped from the new county jail today. Three of the men were recaptured. Included among those still at liberty is Earl J. Clark, convicted of the "red rose" murder of Robert Silva, a sailor.

After knocking out the guard the escaping men broke through a window, crawled along an outside ledge 120 feet above the street and made their way to the ground by way of a fire escape.

Mocks Riches As He Kills Himself

(By Universal Service)

LONDON, March 16.—A former Italian resident of New York, Giuseppe Boggioni hanged himself to a tree in the Chateau grounds at Lake Como, according to Geneva dispatch to the London express.

He left a letter in his pocket reading: "I have discovered during my life that piles of money do not bring happiness. I am taking my life because I can no longer stand the solitude and boredom."

"When I was an ordinary workman in New York I was happy. Now that I possess millions I am infinitely sad and prefer death."

Boggioni made a large fortune in America and was naturalized there. He was unmarried and lived as a recluse at Como where he kept a large staff of servants. American bank notes amounting to \$30,000 were found in his pockets.

Some of them being inscribed "Go to the devil." The police are trying to trace his heirs.

Former Resident Of County Held As Liquor Guard

(By Universal Service)

In a prohibition raid conducted by agents in San Francisco, Robert Ipswich, a former Contra Costa boy was arrested when officers found him asleep on top of a crate of wine. Ipswich is believed to have been guarding the wine and was charged with violation of the prohibition act.

Some 200 cases of expensive liquors are said to have been seized in the raid. An estimated valuation of the confiscated liquor is placed at \$25,000. The raid was conducted at 276 Avila road.

Hayward Law Is Upheld In Alameda Court

(Continued from Page 1)

Hayward. When Richmond drew up a milk ordinance several years ago it was patterned after the Hayward law.

Distributors attacked the law with the contention that it did no make any difference where the milk was pasteurized or how far it was shipped before delivery. Judge Hall and C. W. White, city attorney of Hayward in fighting the case attempted to show by witnesses that to insure the proper inspection of the milk and dairies it was necessary that the milk be pasteurized within a reasonable distance of the city in which it was distributed. This contention of the defense was evidently upheld by Judge Buck in his decision.

Dr. R. R. Root, Richmond milk inspector, was on the witness stand in the case today and gave some general expert testimony in the matter. All of the witnesses were held down to brief testimony, to bring the case which had been on file for several months to a speedy end.

According to Judge Hall it is not expected that the milk producers who brought up the case against the Hayward ordinance will appeal.

Frank Genzel, employee of the Standard Oil company, and wife, left Monday night for Yerington, Nevada, where they were called by the death of a relative.

GOPHER GUN IS CAUSE OF DAMAGE SUIT

The peculiar workings of a gopher gun were discussed yesterday in the court of Judge A. R. McKenzie at Martinez, when the damage suit of Alvo Cavalieri versus Martin X. Urbick was heard. Cavalieri was injured when the gun, which he found on a stove in the basement of the Urbick home where he had gone as was his custom to get eggs, exploded and the full charge struck the boy's eyes.

The gun, it was explained, is designed to explode when a gopher touches a spring trigger so that the gopher will be shot in the belly. This was given as the reason why the Cavalieri boy was shot in the eyes.

Through his guardian, the boy brought damages amounting to \$10,000. The case was settled by Urbick agreeing to pay all doctor bills and expenses incurred and the request for further compensation was abandoned. Cavalieri was represented by Johnson and Bishop and Rodgers and Bray represented the defendants.

S. O. PACIFIC MERGER PLANS ARE COMPLETE

(By Universal Service)
SAN FRANCISCO, March 16.—Consolidation of the Pacific Oil company and the Standard Oil company (California) approved at the special meeting of the stockholders held February 19, will be effected March 29, through the medium of a new corporation formed under the laws of Delaware and which will be known as the "Standard Oil Company of California." Announcement to this effect was contained in a letter to the Standard Oil stockholders made public here late today. It was signed by Kenneth R. Kingsbury, president.

"The entire personnel of your company," the letter stated, "will go over to the new company, which will also take over substantially the entire operating personnel of the Pacific Oil company. The board of directors of the new company will be the same as the board of directors of your company."

"Pursuant to the agreement of consolidation, the new company will issue 9,516,434 shares of its capital stock, share for share, to the stockholders of this company as shown by its transfer books at the close of business March 29, 1926."

"The certificates of stock of the new company will be ready about May 10, and will be delivered by the Equitable Trust company of New York, 605 La Salle street, Chicago, Ill., only upon receipt for cancellation of the certificates you hold in this company."

Three Year Old Watches Man As He Shoots Wife

SAN FRANCISCO, March 16.—"O-O-G. Naughty man," hisped 3 year old Gertrude Roder today after she had seen Axel Hendrix, 35, shoot and seriously wound his wife, Frances, after she had spurned his plea for a reconciliation.

Following the shooting Hendrix jumped into his automobile and sped away. Police are searching for him.

The Hendrix's separated recently after nine years of married life. She took a position as maid in a residence in College Terrace. It was there the shooting occurred.

Mrs. Hendrix's suit for divorce on the grounds of cruelty is pending in the Superior Court. Hendrix, she told police, had filed a cross-complaint in which he accused her of infidelity. She said he charged that she repeatedly returned to her former husband.

Little Gertrude Roder, whose mother, Mrs. Josie Roder, employs Mrs. Hendrix, was standing on the front steps when Hendrix drove up. Taking the child in his arms, Hendrix rang the doorbell.

Mrs. Hendrix opened the door, saw her husband, and attempted to close it. Hendrix held the child away from him, police said, causing Mrs. Hendrix to stop her attempt to close the door for fear of hurting the child.

Oil company (California) in New York and San Francisco will be closed after March 29.

COLLEEN IS HIT IN "IRENE" AT CALIFORNIA

In "Irene," Colleen Moore's latest starring feature for First National, the little star starts things humming when she is sent to deliver certain fabrics to an interior decorator in the home of a wealthy client.

As she waits in the chair, a woman seizes her to see how the expensive silks become her. Just as she drops them about her, the lady of the house enters and takes the girl home for a party dance.

You'll be interested to learn the fate of this winsome little gray mouse who invaded the precincts of the rich. The opportunity will be afforded you at the California Theatre today and tomorrow.

Appearing opposite Miss Moore will be seen Lloyd Hughes, with George K. Arthur and Charles Murray in important supporting roles. Eva Novak, Edward Earle, Kate Price, Ida Doolittle, Lawrence Wheat and others complete the cast.

"Irene" was directed by Alfred E. Green and made under editorial supervision of June Mathis. A special added feature, to be offered during the engagement of "Irene," will be a specially arranged all Irish musical presentation by Larry Canelo, the popular California minstrel, styled "Ideas of Favorite Irish Songs."

"Felix Finds the Flames," a Felix the cat cartoon, and the latest "International News" reel, will also be screened as part of this big St. Patrick's Day bill.

Contractor Sues Doctor for \$50,000

(Copyright 1926, Universal Service)

OAKLAND, Cal., March 16.—A human kidney is worth \$50,000, according to a suit filed in Superior Court here today, based upon an alleged operation that physicians say is one of the most unusual in American medical history.

Arthur Johnston, contractor, plaintiff, accuses Dr. Austin Fisher, M.D., of Malpractice. Johnston's charges in his complaint, summarized are: That he submitted to an operation by Dr. Fisher for removal of a kidney. That subsequently a second operation, based on the thought that the kidney had been removed, was performed.

Later another doctor was consulted, and a third operation was performed. In the last operation, the plaintiff asserts, the physician found that the kidney had not been removed, and that the second operation had resulted in an enormous growth of the kidney, physicians at the hospital where the last operation was performed said that the kidney had attained the size of a toothball.

Carelessness and negligence are charged to Dr. Fisher, in the complaint.

His Probe of Nationwide \$140,000,000 Liquor Ring Involves U. S. Officials

United States District Attorney A. E. Bernstein of Cleveland has about concluded his long Grand Jury inquiry into the operations of an alleged nationwide \$140,000,000 run syndicate operating in many cities. More than 100 persons, among them judges, federal employees and many wealthy men, as well as lawyers, railroad men and police officers, are involved and it is expected that a general indictment will name all those reported to have been implicated in this wholesale violation of the national Prohibition Act.

LOST COMET IS LOCATED

CHICAGO, March 16.—Ensore's comet, reported lost by scientists whose business it is to worry about such things, has been accounted for, Prof. E. B. Frost of Yerkes observatory announced today.

Sky gazers, familiar with the habits of comets, had figured out that Ensore's would be visible to the naked eye Feb. 12. But it wasn't. Detective astronomers were asked to dragnet the heavens for the lost comet.

Professor Frost obliged. He pointed his telescope to that part of the sky where Ensore was supposed to be hanging out. And here was his verdict:

"The comet has become diffused. Comets often do. It has been receding from the earth and sun for several days. As a matter of fact, it kept its scheduled date with the earth, but it could not have been visible to the unaided eye."

"From the few observations that were taken we assume that its course was parabolic, rather than elliptical. In other words, it is a one time visitor to our solar system and never can be seen here again."

Something for All Tastes In Richmond Film

The tastes of movie patrons are varied. Some like romance; others prefer in sensational thrills; still others prefer a bit of human life. All of these classes will find satisfaction in "The Beautiful City," Richard Barthelmess' latest starring vehicle for First National pictures, which is coming today to the Richmond Theatre for a two-day engagement.

The star's leading woman is Dorothy Gish, others in the cast being William H. Powell, Florence Auer and Frank Puglia.

For romance there is a tender love story of an Italian boy for an Irish girl.

For thrills there are gang feuds, a man leaping to his death from the top of a tall building and a battle in a Chinese theatre.

For human interest there is a cross-section of metropolitan life which is seldom used by authors and dramatists, but which, nevertheless, is gripping and intriguing.

"The Beautiful City" is based on the original story by Edmund Goulding, and was directed for Inspiration Pictures by Kenneth Webb.

Other features on the same program include "Fire Away," and Al St. John comedy, "Prizma," the screen magazine.

Two Injured By Hit-Run Driver

ANTIOCH, March 16.—While walking home on the Oakley highway on Monday night, Mrs. F. Noia, 50, and her daughter, Mrs. L. Hodison, 24 were struck down by a hit and run driver. The two women were badly cut and bruised. They were picked up by a passing motorist and were taken to Antioch for treatment.

The sheriff's officers are on a lookout for the motorist who sped on with lights extinguished into Antioch after he had hit the two women. Although a search was made the car, a light roadster, has not been discovered.

Colored Masher Draws \$75 Fine

Arrested for holding up John Benson while subjecting him to a buzzing bee and relieving him of \$70, last week, Lena Richardson, colored, of Redwood City was sentenced to pay a fine of \$75 by Justice Frank Glass yesterday morning at Martinez. The larceny charge was reduced to a vagrancy charge.

The more serious charge against Mrs. Richardson and James Driscoll, a colored salesman, was dismissed when Driscoll returned the \$70 that Benson had claimed was taken from him by the girl, on a Martinez street.

MATTHEWS BACK TO BURNS
Seems as if the soccer tangle will never be settled. At a meeting held at San Francisco on Sunday night the California Football Association met the president of the Burns team and voted to allow Billy Matthews to compete in the relay cup-tie game with the Olympic club. So far the Burns team has made no announcement as to whether they like the decision. Let's hope they untangle the worst mess that has entrained California Soccer in a good number of years.

SPRING FOOTBALL
Football stars are now leaving a sack of regret for in spring the varsity men thought lightly turn to spring football. Half of the eastern University teams are now doing their "three-knots-and-a-half" and are looking for the pie skin around the belt. With the close of the season all of the universities will start on their spring program.

DELAHEY FOR DEMPSEY
Well it's about time for some one that will fight to step up and take the heavy-weight championship. Jack Delaney who has been a big drawing card in the east has been touted as successor for the passing J. Dempsey who has had quite a struggle finding enough capitalists to go broke with offers for fight. According to the sport experts the French Canadian is the only man that can drop them as Dempsey does. Personally it doesn't take much effort to drop a man as Dempsey could drop him better than Dempsey has been doing in the past months.

MISSION DROPS ROOKIES
Three more would-be stars were dropped by the Mission Bears yesterday. It was a sad blow to the boys but apparently they didn't do their stuff the way the coach expected them to. He added in consolation to the three that the boys had shown enough stuff but the Bears had too many experienced players.

ANOTHER ONE
Golf players who have been chiding the little white pill for a good number of years have almost cried through jealousy when an announcement was made yesterday that Mrs. J. B. McKee at Oakland had made a hole in one. Of course some players make the coveted hole in one but the kick back came when it was announced that this was the second career of Mrs. McKee who had even played in her short life. The miracle happened at the ninth green.

Alstrom and Bennett Leading Tournament

Garry Bennett and Art Alstrom are leading the Carquinez Golf tournament with gross scores of 86, according to George Brown, professional at the club.

The matches on Sunday were filled with surprises; notably Pres Neville, who scored 89 over Frank Gordon, who came through with a 93.

Sammy Pendleton, who lead the qualifying rounds on March 7, came through with one stroke more than Bennett and Alstrom.

Phil Harlow came through with a 91, while E. Tittmore shot a 94.

The course par is 70.

California Girl Advancing In Tennis Finals That Are Being Played On Eastern Tennis Courts

(By Universal Service)
BROOKLINE, Mass., March 16.—Miss Elizabeth Ryan of Santa Monica, regained the brilliant form which carried her to the second position in the National rankings and quickly disposed of Miss Julia Chapin of Springfield, 6-0, 6-1 in the second round of the Women's National indoor tennis tournament being played here today.

Her masterful stroking exhibition this afternoon completely atoned for the California's poor showing yesterday when she allowed herself to be carried to extra games by Mrs. John L. Bremer of Boston.

The blame for the star's lapse has been laid upon the long ride from Florida, where she and Miss Mary K. Browne have been busily engaged in tournament competition.

Mrs. Charles J. Hubbard, of Boston, furnished the tournaments first upset when she defeated Miss Edith Sigourney of Boston, 1-1, 6-1.

Miss Martha Bayard of Short Hills, N. J., another favorite easily won her second round match from Miss Rosamond Newton of Boston, 6-1, 6-1. Miss Katherine Gardner of Cambridge also advanced another round when she defeated Mrs. A. L. Robinson of Boston, 6-1, 6-1.

Mrs. Charles Hubbard and Mrs. Margaret Blake opened the doubles competition by defeating Mrs. F. E. Campbell and Mrs. Robert Wolcott, 6-3, 6-3. It was an all Boston match.

Miss Martha Bayard of Short Hills, N. J., and Miss Katherine Gardner of Cambridge also turned in a doubles victory winning from Mrs. H. R. Hardwick of Boston and Mrs. H. B. Riton also of Boston, 6-1, 6-3.

Trojans and Bears to Hold Big Field Meet

LOS ANGELES, March 16.—Invading the fair of the Southern California Trojan for the first time since 1923, ninety athletes will defend the honor of the University of California in five sports here March 19 and 20.

On Saturday, March 20, the great track teams of California and Southern California will fight it to a finish in a dual meet on the Coliseum cinderpath. On Friday and Saturday, the baseball teams of the two institutions will clash. Friday evening, wrestlers, swimmers and water poloists of the two schools meet at the Los Angeles Athletic Club.

Of greatest interest to the college sport fans will be the dual meet on Saturday. Two of the strongest teams of the nation will struggle in a meet that will go a long way toward deciding the supremacy of the far-west.

The reported ineligibility of Captain Jim Barber will probably boost the stock of the Trojans somewhat. California will have an edge in the dope, but the meet will be so close that it will probably be settled when the runners take the track for the relay.

With Barber out of the races, Ed House of Southern California becomes a favorite to cop both sprint events. The Trojan has beaten 10 flat for the century and 22 flat for the 220 yard dash in previous meets. Supplementing him in the 100 yard dash will be Herschel Smith of Trojans. Blume of California is the best northern sprinter. He should place in the century, while Roebig of the Bruins will furnish the competition for House in the furlong. Johnny Parsons is also to be reckoned with in this event.

TOURNAMENT IS PLANNED HERE BY TENNIS CLUB

Plans were made at the meeting of the Richmond Tennis club last night at the city hall, for a tournament to be held immediately after the bath house ceremonies at the West Side court

on Saturday. As yet no players have been decided upon to take part in the event. A. S. Ruml is in charge of the tournament.

A committee was also decided upon to attend the city council meeting on Monday night in an effort to get lights for the tennis courts at the West Side.

It is also planned to have Helen Jacobs, the famous player of Berkeley to appear at the finals of the matches.

President Frank McKnight gave presents to the officers and complemented them upon the interest shown.

Good Exhibition Of Game Given By Helen Wills

(By Universal Service)
CANNES, France, March 16.—Helen Wills treated the Cannes gallery to a masterful exhibition of tight tennis when she celebrated her initial appearance in the local tournament today by sweeping through two rounds with the loss of but one game.

The American champion first encountered Miss Cuppage of England. Against the powerful driving the booming first service and the machine like court movement of the California player the English star could collect but a single game. This came in the first set, of the 6-1, 6-0 match.

Without stopping for a rest period Miss Wills resumed play meeting her second round opponent Mrs. Hall another English player. The first match had served as an effective warm-up and stroking in championship form the youthful American swept to a 6-0, 6-0 victory.

Miss Wills has definitely decided to end her Riviera play with the Beausite tournament next week. The tennis player will then turn artist for a few weeks and make her residence in Italy. It is not unlikely though, that the versatile American will forsake her easel every now and then to play a court exhibition.

When Miss Wills concludes the Beausite tournament next week she will have played through ten Riviera tournaments. This should entitle her to a marathon court championship if there is such a thing. Miss Wills is heading the advice of critics in resting before she enters the spring tournament at Paris.

THIEF ENTERS EMPTY HOUSE

Has the building thief who kept Oakland and Berkeley police on the jump for several months transferred his activities to Richmond? This question was being asked by Richmond police when an attempt was made to steal plumbing and other fixtures from a vacant house at 36 Prospect avenue.

A thief who operated in Oakland and Berkeley several months ago is said to have stolen enough building material to completely build and outfit a house.

Now the local police are wondering if he has transferred his activities here.

The house which was entered last night has stood vacant for some time. Neighbors who called the police stated that the man who entered the place had been frightened away before the officers arrived. The home is owned by the Mintzer estate.

"Cannonball" Express In "Lucky" Head-On Collision With Freight Train, Everybody Escaping Injury

Above is shown a scene of the wreck near Richmond, Va., after the Norfolk and Western "Cannonball" Express, one of the fastest freight trains on the rails, crashed head-on with an Atlantic Coast Line train. Although both engines were derailed, nobody suffered more than a shaking up.

Germany Fails To Gain Seat In the League

(Continued From Page 1)

Reached an agreement at a conference of the Big Four, Briand, Chamberlain, Luther and Stresemann at the Hotel Metropole this afternoon and according to this a compromise was reached to formally initiate Germany into the League tomorrow. Then it developed that Brazil remained as the only obstacle and the ultimatum followed.

Briand and Chamberlain also instructed their ambassadors at Rio de Janeiro to undertake the urgent diplomatic step with the Brazilian president to request the instructions to Senator Mellow Franco so that an agreement at Geneva may be possible.

Special Cable Dispatch
GENEVA, March 16.—The League of nations today and the League of nations today, framed to establish peace and harmony in Europe, almost went into the discard tonight when the League Council failing to reach any kind of a compromise agreement on new memberships for its own body, postponed Germany's entry into the League and Council at least until September.

With at least two governments rocking to their very foundations—Germany and France—and Great Britain's Cabinet threatened with a crisis which may change its complexion and partly disrupt the Tory party, the erstwhile "big powers" are taking stock of the wreckage tonight.

Chancellor Luther and Foreign Minister Stresemann will go back to Berlin in fear and trembling, the failure of their program admittedly strengthened the hands of the nationalist opposition in the Reichstag.

Premier Briand, of France, with a "temporary" government still waiting and wondering what its reception will be in the French parliament, is hurrying to Paris to present to the Chamber a statement of policy on the heels of his fizzle at Geneva. There is no assurance that his new cabinet will ever get a vote of confidence.

Foreign Secretary Sir Austin Chamberlain, of Britain, is returning to London, with "no progress to report" in spite of wired instructions from Premier Baldwin not to go home until every possibility of agreement was exhausted. His resignation, which could well bring a conservative party squabble that would empty other cabinet posts, is no unexpected.

Failure of the great powers to bring pressure enough on Brazil to force that South American republic to withdraw her threat to veto Germany's seat on the League Council, brought the downfall of the Geneva program. Germany's flat refusal to join the League without a permanent seat on the Council, as provided for in the Locarno agreement, was the other barrier to a compromise.

After a long conference today between Premier Briand and Foreign Minister Stresemann, it was apparent that both France and Germany preferred a postponement of the latter's entrance into the League to the complete breakdown of the Locarno agreement. The League Council, as a last resort, agreed upon the postponement.

Woman Acquitted in Cesspool Murder

STOCKTON, March 16.—Mrs. Louise Zamora charged with the murder of Lenora Aguilar a 4 year old girl at Tracy in December 1924 was today acquitted by the court which tried the case. The jury was out but a few minutes when the verdict was reached.

GOLETT TRIAL IS RESUMED

The opening of the second trial of the three defendants in the Golett Oil case yesterday was marked by the impaneling of a jury within a few hours and the presentation of the case which the prosecution will attempt to prove.

In the first trial that ended in the disagreement of the jury, more than four days were taken to select a jury.

The defendants, who are each accused of grand larceny on twelve counts are Edwin F. Reeves, Mrs. Peggy Reeves, and F. P. Davis. E. E. Peacock, the fourth defendant recently pled guilty of a charge of violating the "Blue Sky" laws and the other charges were dropped. He was fined \$1,500.

Deputy District Attorney Frank Coakley made the opening argument for prosecution yesterday. The defendants are represented by E. Nagnuolo and K. Forsman. This is the second time that the case has been tried. The trial started in January but was suspended after Attorney Wilbur Pierce had been shot. Pierce represented the three defendants. Judge F. V. Wood, hearing the case, dismissed the jury pending Pierce's recovery but in the meantime Pierce withdrew from the case.

El Cerrito Board Of Trustees Has A Busy Session

A petition from the property owners on the West side of San Pablo avenue between Potrero and Cypress streets to have the board widen that portion of the avenue twenty feet instead of sixteen feet was referred to city engineer Ross L. Calfee to incorporate in the plans for the widening of San Pablo avenue.

RIGHT OF WAY
The matter of obtaining the right of way on the east side of San Pablo 168 feet by 19 feet opposite Park street was referred to trustee Chas. Zimmerman.

LICENSE ORDINANCE
On a motion of trustee Kirk Gray the board instructed city attorney T. M. Carlson to draft an amendment to the license ordinance providing that all peddlers not operating from a fixed place of business pay a license of \$50, a quarter instead of \$100 by the board to protect the business men of El Cerrito from the peddlers who operate along the highway during the fruit season.

TO CLEAR OFF GRASS
The suggestion of trustee Fred Lutz that the city take steps to clear all the property of grass before the summer on account of fire hazard was referred to attorney Carlson for one week.

ARMY FLIERS ESCAPE DEATH

(By Universal Service)

TUCSON, ARIZ., March 16.—Lieutenants G. F. Stoner and Jack Hodgson, army airmen, narrowly escaped death when the plane in which they were flying enroute to Brooks Field, San Antonio, Tex., crashed in the desert about twenty miles from Tucson today. The officers arrived here from Brainerd, Calif., yesterday evening, and had just resumed their flight today when motor trouble developed and the engine went dead.

Lieut. Stoner, the pilot, attempted a forced landing on the mesquite covered desert, gliding down from an altitude of 2,000 feet, but busted a tire as the wheels struck the ground rendered the plane unmanageable and it was completely demolished as it tore through the heavy underbrush.

The accident was witnessed by passengers of a Southern Pacific train and promptly reported to Tucson authorities by the engineer at the next station. A rescue party was dispatched to the scene. Both officers were unhurt.

Yucatan Divorces May Not Be Legal; Many Are Involved

(By Universal Service)

NEW YORK, Mar. 16.—New Yorkers who have obtained divorces in Yucatan were startled today to learn that their decrees may not be considered legal here.

At least 24 persons here and many more living in other cities may not be as free from matrimony as they thought they were. They were given a lot to worry about today when they read dispatches from Philadelphia to the effect that Postal inspectors had set an investigation into the 20 days divorce mill said to be operated by G. W. Disharoon at Upper Merion, Pennsylvania.

When Disharoon was quizzed he surrendered his business papers which included a letter to W. P. Costello, said to be the Yucatan agent with whom Disharoon split his \$800 fee for divorces granted in Mexico.

Postal inspectors said they would lay the case before the State Department for a ruling.

They also intimated that if the Federal authorities find that an international divorce ring is in operation they will shift their investigations to New York, San Francisco, New Orleans, and other cities where attorneys are said to be working agents in Yucatan for easy divorces for their clients.
